Professional Summary

Results-driven **Software Engineer** with a strong foundation in developing scalable web applications and backend services. Proficient in **clean architecture**, **REST APIs**, database design, and cloud technologies. Collaborative team player experienced in building reliable software solutions and following modern development best practices.

Technical Skills

Languages: Python, JavaScript, TypeScript, Go, SQL, HTML/CSS.
Frameworks & Libraries: React, Node.js, Express, Next.js, Django.
Backend & Databases: PostgreSQL, MySQL, Redis, MongoDB.
Developer Tools & Cloud: Git, GitHub, Docker, AWS, Linux, CI/CD.

Projects

Task Manager App | *React, Node.js, PostgreSQL* | [GitHub]
- Built a REST API with Node.js and PostgreSQL for task management and authentication.
- Developed an interactive user interface using React and Tailwind CSS for workflow tracking.

E-Commerce Platform | *Python, Django, PostgreSQL, Redis* | [GitHub]
- Architected backend services with Django and PostgreSQL for order processing and inventory management.
- Implemented data caching with Redis to optimize product catalog retrieval speeds.
- Containerized application services using Docker and Docker Compose for streamlined local deployment.

Analytics Dashboard | *TypeScript, Next.js, Tailwind CSS* | [GitHub] | [Live]
- Engineered a real-time data dashboard using Next.js and TypeScript for metrics reporting.
- Integrated external charting services with REST APIs for interactive visual analytics.

Developer Tooling CLI | *Go, CLI, GitHub Actions* | [GitHub]
- Created a command-line tool with Go and GitHub Actions to automate project setup and testing.

Work Experience

Software Engineer Intern — Jun. 2024 – Aug. 2024
Example Tech Company — *City, Country*
- Developed backend services with Node.js and PostgreSQL to support client-facing applications.
- Implemented automated testing pipelines using Jest and GitHub Actions for continuous delivery.
- Collaborated with engineering teams using Git to conduct code reviews and improve code quality.

Education

Your University — 2021 – 2025
B.Sc. in Computer Engineering — *City, Country*

Certifications

Cloud Solutions Architect Certificate | *Example Cloud Academy* — 2024
Full Stack Web Development Certification | *Example Learning Platform* — 2023
Software Engineering Fundamentals | *Example Online Institute* — 2022

Leadership & Volunteering

Student Tech Club Lead | *Your University Tech Community* — 2023 – 2024
Open Source Contributor | *Developer Community* — 2022 – 2023
Volunteer Mentor | *Local STEM Youth Initiative* — 2021 – 2022

Soft Skills & Languages

Soft Skills: Problem Solving, Team Leadership, Communication, Adaptability, Time Management.
Languages: English (Fluent), Spanish (Conversational).
